Achievements

- 5 Star coder in Java at HackerRank [🔗](#)

Projects

- **World Affairs** [🔗](#)

· A news app built using the News API. Here users can see any kind of news and there are multiple filters available for better results.

· Used environment variables for hiding the API key.

· Used react-router for routing.

· Supports theme change between light and dark.

HTML, CSS, JavaScript, Material UI, Framer Motion, News API

- **Text Util** [🔗](#)

· A web application that allows you to manipulate text in various ways.

· I've used a material UI-based library called MUI.

· For smooth animations, I have used framer motion.

· It also supports dark mode.

HTML, CSS, JavaScript, React, MUI, Framer Motion

- **To Do App** [🔗](#)

· A basic to-do list app with all the basic features where users can add, delete, mark as read, and unread for any to-do.

· It has a simple and clean UI.

· This web page also has a dark mode option.

HTML, CSS, JavaScript, Animate.css
